

GUIDE RINGS SIZE

▶ PRINTING SETTINGS:

To get the best results, you will need to go to the “printing settings” before printing and ensure that the “page scaling” option is set to “**100%**” in the print dialogue box. The Ring Size Chart must be printed on a full letter (8 ½ x 11 inches) A4 size page. To check that the Ring Size Chart has been printed properly, take a ruler and measure the sample below. It should measure exactly 2 cm.

▶ HOW TO USE THE RING SIZE CHART:

- If you have a ring that perfectly fits the finger on which the creation will be worn, you can place it over the nearest sized circle of the Ring Size Chart.
- If your ring appears to be between two sizes, we recommend that the larger size be chosen.

The inner edge of the ring does not contact fully with the external edge of the ring.

Choose smaller size

The inner edge of the ring does not contact fully with the external edge of the ring.

Choose bigger size

The inner edge of the ring tangential fully with the external end of cycle.

This is the right size
